

Har Moment,
COOL BANAYE

About Us

Supercool began with a simple dream—to make cooling solutions that every household could afford. What started as a small step soon turned into a remarkable journey, fueled by the trust of our customers and the belief that comfort should be accessible to all.

Over the years, this vision has grown into something much bigger. From our humble beginnings, we have built a modern facility that reflects both our ambition and our commitment to excellence. With every innovation, we have moved closer to our goal of redefining everyday living.

Today, Supercool is more than just a cooler manufacturer—it is a brand that stands for dependability, creativity, and progress. By combining quality with affordability, we continue to serve millions of homes and strengthen the trust that has been our greatest achievement.

COOLING COMFORT SINCE 2016

Rakesh Goyal
(Chairman)

At Supercool, we see a home as more than just a place to live—it's where comfort, design, and innovation come together to enrich daily life. Our appliances are crafted to blend seamlessly into your lifestyle, adding ease and joy to every moment.

This year marks an exciting evolution for us as we embrace a renewed identity under the banner of Inspired Living. We're not reinventing who we are—we're strengthening our foundation by creating smarter, sleeker, and more meaningful solutions for today's homes.

As the founder, I, Rakesh Goyal, feel deeply proud of the Supercool family. Their dedication, imagination, and precision make it possible for us to offer products where reliability meets beauty, and innovation meets trust.

Aman Goyal
(Director)

At Supercool, every appliance begins with a promise—care, precision, and responsibility in every detail. My role is to see that this promise is honored in all that we deliver.

We follow a clear principle: nothing leaves our facility until it earns our complete confidence.

What inspires me most is the spirit of our people. Their skill and dedication transform ideas into products that bring trust, comfort, and durability to your home.

With the same energy and determination, we will continue to create solutions that simplify life, enhance comfort, and stand the test of time.
